

Testimonial of Greenlight L.P. / TPN L.P.

Greenlight L.P./ TPN L.P based out of Orange County own and operate Southern California gourmet Italian eateries Cucina Alessa Newport Beach and Cucina Alessa Huntington Beach respectively. The genesis of the restaurants began with the simple idea of providing quality authentic Italian food with excellent service while ensuring every person be treated like family.

We have worked with GBC over the past five years to create and sustain an award winning restaurant concept. GBC's attention to detail, and small business friendly approach to evaluating each project for its true potential has allowed us to flourish in an industry which is known for its high attrition rate.

GBC has done what other "big banks" refuse to do, which is genuine develop and nourish real relationships with their customers rather than treating them as a statistic. This approach, similar to the approach our company has promoted with regard to the restaurant business is a testament to the way businesses should be run, and continue to provide us with a great opportunity to grow along with GBC while maintaining a meaningful relationship with our bank. We look forward to continued success, growth and prosperity.
