

## Testimonial of Mee Industries Inc.

Our relationship with GBC began in June 2004, when we entered into a credit facility to finance export transactions. Today, GBC substantially increased that line in order to accommodate our increasing export sales.

In February 2005, we entered into a project specific line of credit with GBC, to finance specific export transactions. Today, this line has been increased to more than four times the original credit limit.

In May 2007, we acquired a new manufacturing facility. GBC financed the new facility. In addition, they also financed the remodeling of the new facility. In 2010, when the remodeling was completed, GBC assisted us in obtaining an SBA 504 loan to refinance the remodeling cost, with a very attractive interest rate and terms.

In 2011, we entered into another credit facility with GBC to finance domestic transactions. Currently, GBC is also considering a major increase in this line to accommodate the increase in our domestic sales.

I really can't say enough good things about GBC. They have shown great confidence in us and our future. For a fast-growing company like ours, we could not have a better partner to grow with than GBC. They are flexible and willing to work with us. We very much appreciate GBC's support in all our efforts and we look forward to many more years of a mutually rewarding relationship with GBC.
